

## Closing Session

### CHG Healthcare Spotlight & ObservePoint Product Vision

**Rob Clarke** Chief Product Office at ObservePoint

**Cameron Cowan** Sr. Director of Product Strategy at ObservePoint

**Nick Homer** Sr. Web Analyst at CHG Healthcare

---

In this session, we first explore the importance of web governance and using a Web Governance Framework. In this day and age, it is vital to know what exists in one's web ecosystem and then aligning business processes and objectives with that understanding.

Then, the conversation turns to the ObservePoint long term product vision. Learn how ObservePoint aims to more fully support clients in managing the complexities of web governance. They outline the architecture of the ObservePoint Web Governance Platform and emphasizes its evolving capabilities.

#### Key Learnings in this Breakout:

- ✓ Web Governance Framework: Presented by Cameron, this framework helps organizations navigate the complexities of governing their web ecosystems
- ✓ Importance of "What": Knowing what exists in your web ecosystem is essential for effective governance and aligns with business objectives
- ✓ ObservePoint's Role: Rob articulates how ObservePoint positions itself as a centralized platform to support various web governance disciplines
- ✓ Recent Updates: Features like alerts and sharing have been added to the platform for enhanced governance capabilities
- ✓ Future Developments: Inventory and integration layers are in the R&D stage, aiming to provide an account-wide inventory and third-party integrations
